

KHIRESHWAR SURYAWANSHI

Data Analyst Portfolio

 ENTRY-LEVEL · ANALYTICS

[OPEN TO OPPORTUNITIES](#)

This portfolio showcases my hands-on data analytics projects developed during my learning journey using Python, SQL, Excel, and Power BI. Each project demonstrates my ability to clean, analyze, visualize, and derive insights from real-world datasets.

About Me & Skills

-  I am an entry-level Data Analyst with a background in Electronics Engineering and Information Technology. I enjoy working with data, uncovering trends, and building dashboards that transform raw information into meaningful insights. My current focus is developing skills in Python, SQL, and Power BI through hands-on projects and continuous learning.

 PUNE, MAHARASHTRA

Technical Skills

Python

Pandas, NumPy, Matplotlib, Seaborn for data manipulation and visualization

SQL

Querying, joins, aggregations, and window functions for relational databases

Power BI

DAX, data modeling, interactive dashboards, and report publishing

Excel

Advanced formulas, pivot tables, and data validation

Tools & Technologies

Python

Data wrangling, statistical analysis, and automation scripts

Power BI

Interactive dashboards with DAX measures and drill-through

Git & GitHub

Version control, collaboration, and portfolio hosting

SQL

PostgreSQL, MySQL — complex queries and data extraction

Excel

Advanced analytics, pivot tables, and VLOOKUP

Jupyter

Exploratory notebooks and reproducible analysis

Data Analytics Journey & Crude Oil Price Analysis

This end-to-end project analyzes global crude oil price movements from **1986 to 2026**, covering historical trends, geopolitical events, and future projections. The dataset spans four decades of energy market data, offering rich opportunities for exploratory analysis and business intelligence.

Data Cleaning & Feature Engineering

- Handled missing values using forward-fill and interpolation
- Removed duplicate records and outliers
- Created inflation-adjusted price columns (USD 2024)
- Engineered volatility index and year-over-year change features
- Segmented data into geopolitical event periods

Key Insights from EDA

\$145.31

Peak Price

Highest recorded Brent crude price per barrel during the pre-financial crisis boom

10,158

Records Analyzed

1986 - 2026 Records was Analyzed

-\$36.98

Lowest Price

Lowest recorded crude price per barrel

Historical Analysis of WTI Crude Oil Prices (1986–2026)

\$145.31

Highest Price

(\$36.98)

Lowest Price

\$48.34

Average Price

\$101.56

Latest Price

Filter by Year
